

#### **7.4. Tele-teaching classrooms**

This action is targeted at equipping each of the universities of the ceiA3 with a tele-teaching classroom for giving undergraduate and master's degree courses related to the agrifood field by upgrading the classrooms and acquiring the necessary equipment. Studies have been carried out on the work to be done and the bids received have been evaluated. Following an initial selection, the administrative procedures to award the contracts are currently underway. In accordance with the resolution of the first phase of the CEI2010 call, €315,000 have been earmarked for adaptation to the EHEA. The funding will be will be invested as follows:

- €103,945 for purchasing the equipment needed to set up five tele-teaching classrooms (one per university).
- €211,055 to upgrade the installations and facilities for the five classrooms.
